

MIE 2002, Budapest, Aug 25-29, 2002

Workshop of EFMI WG MIP

Reference Image Datasets for Medical Image Processing
Research and Development

Tuesday, 27 August, 16.10-17.30 in Room A

AGENDA

- 1 Presentations
 - EFMI WG MIP approach (concept , roadmap, first datasets) (Horsch)
 - The Geneva image database software Casim@ge (Lovis)
- 2 Discussion of the presented material
- 3 Collection (brainstorming) and sorting of ideas for improvement

Items 1-3 shall not be done strictly sequentially, but in an interactive and iterative manner, resulting in a collection of (additional) ideas.

- 4 Selection and final agreement on a list of recommendations
- 5 List of potential new members for WG

If there is enough time:

- 6 Brief discussion about the need to integrate medical image processing into ICT solutions for healthcare
