

MIE 2002, Budapest, Aug 25-29, 2002

Workshop of EFMI WG MIP

Reference Image Datasets for Medical Image Processing  
Research and Development

Tuesday, 27 August, 16.10-17.30 in Room A

PROTOCOL

- 1 Participants (\*new persons with high interest in WG MIP):
  - Horsch, Alexander, Germany (Chair)
  - \*Ege, Bernhard, Denmark
  - \*Hejlesen, Ole, Denmark
  - \*Punys, Vytenis, Lithuania
  - Sara, Radim, Czech Rep.
  - Sußmann, Helmut, Germany
  - Tobman, Matvei, Germany
  - \*Tomeckova, Marie, Czeck Rep.
- 2 Presentations
  - EFMI WG MIP approach (concept , roadmap, first datasets) (Horsch)
  - The Geneva image database software Casim@ge (Lovis)
- 3 List of recommendations
  - Take improvement of devices into consideration.
  - Do also provide methodological guidelines (e.g. w.r.t. cross-validation); otherwise no real comparability would be achievable.
  - Do not record too detailed patient information in order not to come too close to a so-to-say 'subpart of a patient record'?
  - Establish and keep close contact to radiology associations, especially w.r.t. the quality assurance work that is done there, and which is very closely related to RID.
- 4 List of potential new members for WG
  - Ege, Bernhard, Denmark
  - Hejlesen, Ole, Denmark
  - Punys, Vytenis, Lithuania
  - Tomeckova, Marie, Czeck Rep. (eventually as associated person)

Alexander Horsch  
Munich, Sept 5, 2002
