

EFMI WG MIP
6th meeting, Geneva, CH

Sunday, 28 August 2005, 16:00-17:00, at MIE conference

MINUTES

Participants: Alexander Horsch, Munich, Germany
Thomas Lehmann, Aachen, Germany
Henning Müller, Geneva, Switzerland
Jouni Mykkänen, Tampere, Finland
Maria Nicolaou, Nicosia, Cyprus

- **TOP 1: Welcome and introduction**

Alexander Horsch gave a welcome and a brief overview on mission and activities of the working group.

- **TOP 2: Report on recent activities**

Alexander Horsch gave a reported on recent activities, especially the very successful workshop on validation at the CARS conference in Berlin. For details he referred to the presentations and the working group report published on the website.

- **TOP 3: Future activities**

Jouni Mykkänen will get in contact with Vytenis Punys to discuss how to gain progress with the setup of our European Image Processing Groups information system.

As to the RID initiative, it was agreed that the working group shall try to announce a competition for a specific task in medical image processing where a reference dataset can easily be made available.

The CARS organizers are very interested in the participation of the working group also at the next conference which will be held in Osaka, Japan, June 28 to July 1, 2006. All working group members shall check if they can participate and support this event.

- **TOP 4: Miscellaneous**

The next working group meeting will take place during the EFMI Special Topic Conference in Timisoara, Romania, 6-8 April 2006.

Tromsø, 03 October 2005

A. Horsch, Chair
